

## 4<sup>th</sup> Quarter Information

---

>>> **Write the following down in your notebook** <<<

- If you need a new spiral notebook, you should have it, if not, get one, asap.
- If you have not obtained a accurate magnetic compass and a protractor, get them. There will be some homework assignments that will require these items for accurate readings.
- **All** upcoming class quizzes and tests, (with the exception of the final) will be from the Earth Science textbook. Warm up questions can come from the text book or from the notes.
- The second semester final exam will be a comprehensive test over the third and fourth quarters.
- A large amount of fourth quarter's homework will be reading the following textbook chapters 21, 22, 23, 24, and 25.
- If you do not know or have forgotten your login name and password for the online textbook, get it from the black book. If your computer or internet connection is down, inform your parents. It is vital for your success in this class to read your computer or internet textbook at home for the fourth quarter.
